Para: Juan Candelaria <juan.candelaria@udem.edu>

Juan Ángel Candelaria Rodríguez

Congratulations!

Due to the ongoing U.S. government shutdown, NASA Space Apps will not be able to update spaceappschallenge.org or our social media channels to publicly announce this year's Global Nominees. In the absence of our public announcement, we are writing directly to inform the following teams of their Global Nominee status:

Team: Sharkmageddon**Event: Universal Event**

We have included copy and a graphic for optional use if you'd like to optionally post on your channels. Feel free to adjust the copy to share your personal thoughts and reflections on this exciting honor!

- COPY: Announcing the 2025 NASA Space Apps Global Nominees!

I am excited to share that my team has been chosen as one of the 1,290+ Global Nominees selected from Local Events and the Universal Event! #SpaceApps participants submitted over 11,500 projects and mine stood out as a Global Nominee in the 2025 NASA Space Apps Challenge!

Although we may not be able to publically share at this time, please be assured that we were incredibly impressed by this year's Global Nominees. Congratulations!

Thank you for your continued flexibility and understanding during this time. We recognize that the U.S. government shutdown has required extra patience and adaptability, and we truly appreciate your involvement in the 2025 NASA Space Apps Challenge.

NASA Space Apps is funded by NASA's Earth Science Division through a contract with Booz Allen Hamilton, Mindgrub, and SecondMuse.

Thank you,

--
